### WWRS Accounts

Accounts identify an individual seller entity, such as a countries branch of service. Each account is identified by a FMS seller's case

Account Name				
NAVAIR (YY) - NAVAIR	<a href="#">Modify</a>	<a href="#">Identifiers</a>	<a href="#">User Access</a>	<a href="#">Price Rules</a>

The WWRS PMO establishes the initial account upon receipt of a signed LOA and identification of WWRS Points of Contact. Any changes to POC information, authorized selection and pricing variables, and field option definitions are the responsibility of the seller to modify. Clicking the Seller Account(s) link will display the account(s) to which the current user has been granted access.

Local intranet 100%

# Seller Startup

---

## 10.1.3 User Access

- User access is managed at either the account level or identifier level
- Those users with account access, also called account super users, automatically have access to all identifiers specified in that account. However, user access can be granted to specific identifier(s)
- Role Required (SELLER) – Note: In order to have access to modify account level information, access must be granted at the account level
- All users that have identifier level access only may modify the identifier(s) to which they have access, but cannot modify account level information

# Seller Startup

---

## **10.1.2.1 Add / Modify Identifier**

- To add a new account identifier, click the add link in the view account identifier screen
- To modify an existing identifier, click the Modify link next to the identifier to be modified
- Whether adding or modifying an identifier, the following data is collected and used at the identifier level
- Unless specified at the identifier level, all account level information and parameter options apply to the identifier

# Seller Startup

- Seller Sales Report
- Open Req Xref Report
- Buyer Activity Report
- Buyer Sales Report
- Demand History Report

### Account Identifiers (NAVAIR (YY) - NAVAIR) [Add](#) [Cancel](#)

Identifiers are logical groupings of listed inventory. At least one identifier, per account, is required

Identifier				
LAKE	RDO Short Name PYYL44 overrides Account RDO Short Name of PYYXXX	<a href="#">Modify</a>	<a href="#">User Access</a>	<a href="#">Price Rules</a>
ORANGE	RDO Short Name PYYO44 overrides Account RDO Short Name of PYYXXX	<a href="#">Modify</a>	<a href="#">User Access</a>	<a href="#">Price Rules</a>

An account identifier is defined as a logical grouping of inventory within a single WWRS seller account. The seller may have as many account identifiers as they see fit, but at least one identifier per account must be established. All materiel listed for sale is listed under an account identifier. Account level parameters can be overridden and can vary among different identifiers from the same seller.

Done Local intranet 100%

# Seller Startup

---

- **Identifier Name:** The unique name, per account, of the identifier (can only be specified when the identifier is added. This cannot be modified)
- **Minimum Order Value:** Same as account level definition
- **Enforce MOV:** Same as account level definition
- **Offer Expiration Date:** For each identifier, the seller may choose to list inventory for a finite amount of time by choosing an Offer Expiration Date (optional)
  - By selecting an expiration date, any inventory listed under this account identifier will be deleted on the specified day

# Inventory

---

# Inventory (Data set uploads)

---

- **Upload Dataset (Inventory)**

- Datasets are text files that consist of multiple transactions (Section 12 of the WWRS Handbook)
- Can input directly to WWRS or can be e-mailed on excel spreadsheet to [afsac.wwrspmo@wpafb.af.mil](mailto:afsac.wwrspmo@wpafb.af.mil)
- Lists must include national stock number (NSN), quantity, condition code, and unit price
- Eligible materiel is: materiel previously obtained via FMS, supply condition code “A” (serviceable), and not rejected items such as SME, hazardous, shelf life, etc.
- Results usually require a response from the seller once inventory is loaded. Examples would be no price, haystack cannot find the item, incorrect NSN, multiple listings

# Inventory (Data set uploads)

---

- **Research Items / Offers**

- The capability exists to provide a dataset of items through the website to determine WWRS eligibility and to view any listings (for sale) provided by the seller
- The format for each item uploaded can be viewed in Appendix A of the WWRS Customer Users Guide
- Dataset upload formats, and the details of each item researched is discussed in the display items researched section below

# Inventory (Data set uploads)

# Minimum Order Value (MOV)

---

- **Minimum Order Value (MOV)**
  - Prior to listing materiel on WWRS, the Seller must assign a minimum order value (in US dollars)
  - The minimum order value is the dollar amount on an individual order the Seller must receive for the transfer of materiel to be cost effective
  - The Seller can determine the minimum order value by adding the costs of locating the materiel, packing the materiel, shipping the materiel (as a consolidated shipment or stand alone) to the IIP, freight forwarder handling, and customs clearance charges
  - It is anticipated the minimum order value will vary from Seller to Seller based on the respective country transportation, labor rates, and policy for disposition of excess

# Quantity X Price = MOV Formula (cont)

---

- **Why was it created?**
  - Allows for the transfer of low dollar items to go to WWRS although above DoD price
  - Gives buyer the opportunity to purchase these items
  - FH advice code requisitions will NOT pick these up automatically due to above DOD price
  - FW advice and RIC FWW are required when inputting the requisition
  - Seller's MOV is advertised in WWRS inventory
  - Became effective March 2011 on new inventory loaded/reloaded

# Quantity X Price = MOV Formula (cont)

---

- **Example**

- Buyer would like to purchase all five of the seller's NIIN 005346275
- DOD cost is \$50
- Seller's minimum order value is \$500
- $5 \times \$50 = \$250$ , price is adjusted with MOV formula
- Price is now \$100 each to meet the minimum order value of \$500

# WWRS Eligibility Requirements

---

# Eligibility Requirements

---

## AECA requirements

- WWRS operates under the Arms Export Control Act (AECA) Section 21(m) "Return of Defense Articles."
- Materiel may be accepted if:
- The defense article was previously transferred to an authorized country or organization under the AECA
- Is not significant military equipment (SME) (as defined in section 47 (9) of the AECA)
- Is in fully functioning condition without need of repair or rehabilitation\*

\* Unserviceable materiel with serviceable components may be transferred if the serviceable components are identified and priced at the value of the serviceable component

# ELIGIBILITY REQUIREMENTS

---

## What can and can't be sold (additional edits)

### Additional Item Eligibility Requirements

- When listing materiel for sale additional edits are performed to ensure transfer eligibility
- Items meeting one or more of these edits must be reviewed by the WWRS PMO
- Edits look for items restricted from transfer by WWRS in addition to SME
- COMSEC Controlled Items , Classified Items, Explosives, Ammunition, Shelf Life, Hazardous Material, Chemical Weapons, etc.

# Eligibility Requirements

---

## **Ammunition, CAD/PAD, Explosives**

- Items with the following codes are flagged for listing determination:

Federal Supply Classification (FSC) between 1281 and 1419

Federal Supply Classification (FSC) = 4925

Material Management Code (MMC) = AQ, MN, JB

## **Ammunition, Non-Explosive**

- Items with the following codes are flagged for posting determination:

FSC between 1001 and 1039

FSC between 1041 and 1280

FSC between 1420 and 1450

# Eligibility Requirements

---

## Shelf Life

- Items with a shelf life less than 24 months are not eligible to transfer. These items may only be transferred under urgent conditions or as part of a pre-arranged transfer. Items with the following shelf life codes are reviewed

Shelf Life Code = A, B, C, D, E, F, G, H, J, K, L, 1, 2, 3, 4, 5

(All of these codes indicate that the shelf life of the item is under 24 months)

## Hazardous Materiel

- Items with following codes are eligible for posting on WWRS:

Hazardous Item Code: N, O, P, Blank

# ELIGIBILITY REQUIREMENTS

---

## Chemical Weapons

- Chemical weapons are not eligible for WWRS transfer, and are identified by the FSC 1040

## Significant Military Equipment (SME)

- Significant military equipment is not eligible for transfer through WWRS. The following codes are possible indicators of SME, but are reviewed by the PMO for listing determination
- Contact the US State Dept for all SME transfers  
Demil Code = C, D, F, G, P

# Eligibility Requirements

---

## How does WWRS manage these items?

- Materiel remains in the possession of the Seller until requisitioned
- Seller and Buyer remain anonymous
  - WWRS is designed to conceal the identities of Sellers and Purchasers
  - The PMO uses its best effort to protect identities throughout the entire transfer process
- Materiel passes through In-transient Inspection Point (IIP)
- Visually inspected for the appearance of serviceability
- Materiel is sanitized (removal of exterior markings which could indicate the previous foreign customer's identity)

# Eligibility Requirements

---

## How does WWRS manage these items? (cont)

- Documentation is maintained, serial numbers recorded when appropriate, photographed, repackaged and shipped to the Purchaser
- The Seller is liable for the serviceability of the materiel
- Unserviceable materiel is either returned to the Seller's freight forwarder or disposed of at the Seller's expense
- The USG assumes title to materiel once it passes inspection and transfers title to the Purchaser
- The PMO maintains records of transferred assets' origin and destination, associated dollar values, requisition numbers, and serial numbers for management and audit purposes

# Lot Buys

---

# How to Market your Material

- **Lot Buys**

- A Lot Buy is defined as 20 or more line items selected by one buyer from one seller
- Depending on the value of the lot, the seller is entitled to certain program fee discounts (see chart on next slide)

# How to Market your Material

- **Lot Buys (cont)**

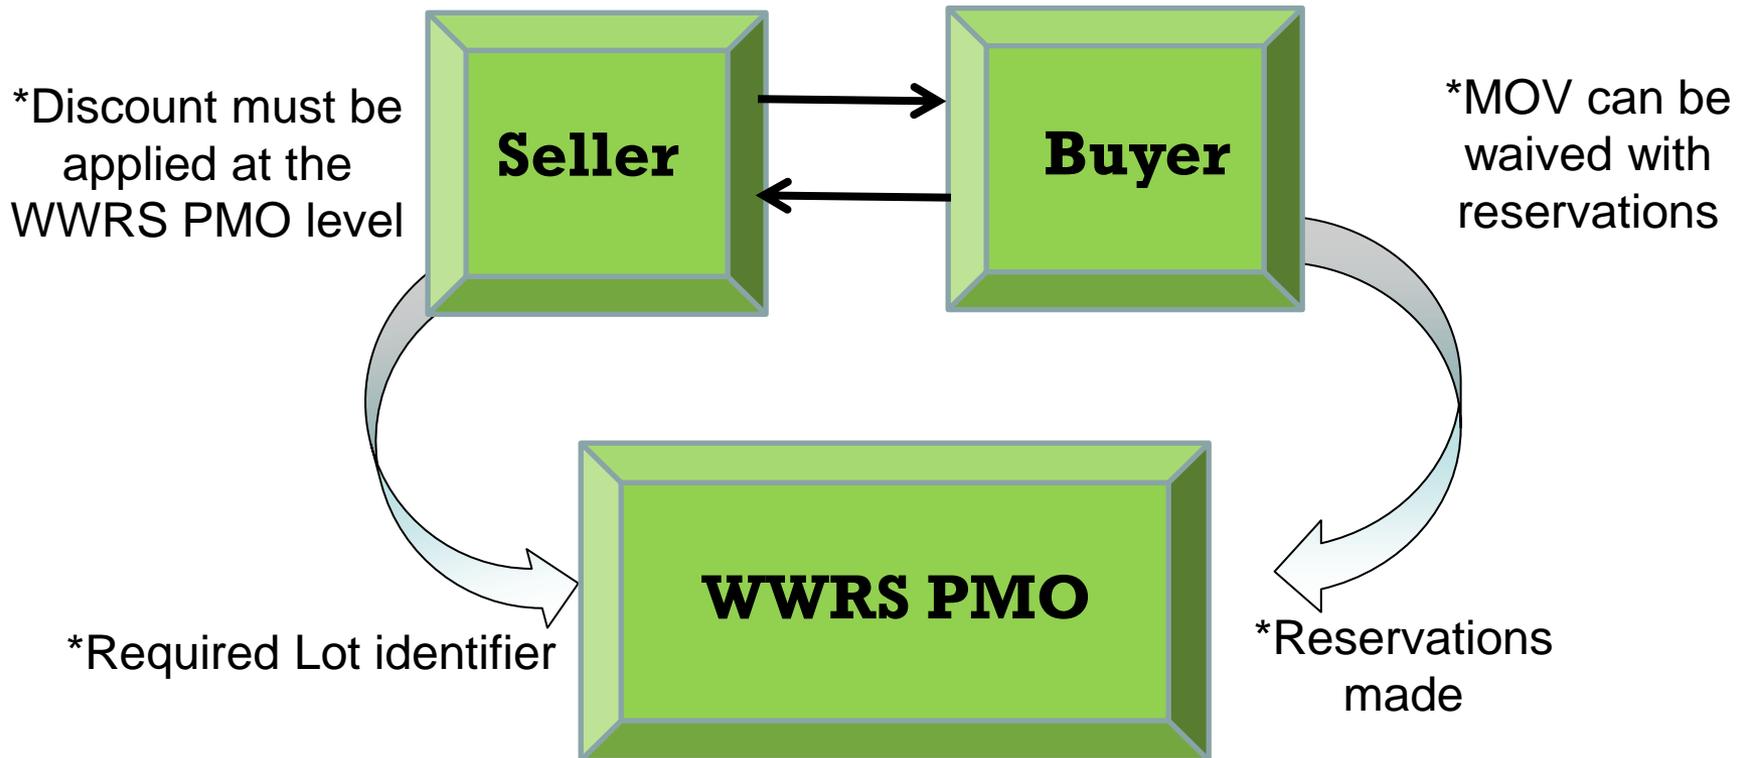

- The buyer may also be entitled to certain pricing discounts (negotiated between seller / buyer)
- A lot buy can be set up between two countries that know each other's identity or can be anonymous
- These discounts are specified by the seller, and are visible when building a lot buy
- WWRS PMO will initiate the transfer once the final negotiation is complete (you must contact the PMO before loading the inventory so PMO can reserve it in system)

<b>Transfer Value (\$\$)</b>	<b>Discount (off standard WWRS fee)</b>
< \$100,000	10% (fee 7.65%)
>= \$100,000	20% (fee 6.8%)

# Lot Buys

WWRS sellers acts as the initiation point to the transfer

\* Each RDO is subject to the minimum WWRS Fee, currently \$ 200.00

# RDO Manager

---

# RDO Manager

A screenshot of the RDO Manager web application interface, displayed in an Internet Explorer browser window. The browser's address bar shows the URL: https://afzac.wpafb.af.mil/wwrsapp/serlet/AFSAC.SSO.Controller?servicesHomePage. The page title is "INFOCON 3 UNCLASSIFIED FPOON Alpha". The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. The Favorites bar shows "DISAM" and "Web Slice Gallery". The browser's status bar shows "Atlas2" and "WWRS Business Applic...". The application interface has a green header bar with "INFOCON 3 UNCLASSIFIED FPOON Alpha". Below the header bar, there is a navigation menu with "Orders", "Inventory", and "Help". The main content area is divided into several sections: "My RDOs" (149 RDOs Awaiting Response, 309 RDOs Responded to Awaiting Receipt at IIP), "Suspended Requisitions" (1 Suspended Item Suspensions, 1 Restricted Item Suspensions, 0 Purchase Approval Suspensions, 0 Different Condition Inventory Suspensions, 0 Cancellation Requests), "Suspended RDOs" (0 Suspensions - Comments Need Reviewed, 0 Suspensions - Extension Requests Need Reviewed, 10 RDO(s) w/ Qty on Hold at the IIP, 4 Open Short Shipment Notifications, 6 Open Return/Disposal Notifications, 42 RDOs Awaiting Material Return, 9 RDOs Awaiting Material Disposal), and a right-hand sidebar with links for "AFSAC On-Line Home Page" and "FeedBack Form". The sidebar also contains text: "Want to open another AFSAC-OnLine application? 45 days to respond

# RDO Manager Highlights

---

- **If a seller receives an order for a quantity of 50, they have 45 days to respond to that open RDO**
  - Can they provide the total quantity of 50 in condition code A ?
  - If they cannot provide the total quantity, they must fill in how much they are able to ship in the box provided
  - This will change the buyer's status from BZ to BV in both SAMIS and AFSAC Online
  - If a seller does not reply to the RDO Manager within 45 days, the RDO will automatically be cancelled
  - Daily reports will show you all open RDOs
    - This is sent to the in country POC or to whomever you designate

# RDO Extension Request

The screenshot shows a web browser window titled "WWRs Business Applications - Microsoft Internet Explorer provided by USAF". The address bar shows the URL "https://gold.afsac.wpafb.af.mil/wwrsapp/servlet/AFSAC\_SSO.Controller?service=RDOSearchParms&amp;". The browser shows a "Certificate Error" warning. The page content includes a navigation menu with "Orders", "Inventory", and "Help". Under "Orders", there is a sub-menu for "RDOs" with options: "By Status", "Open", "Cancel / Extension / Comments", and "Respond (Shipping Information)". The "Open" option is selected, leading to the "Find Redistribution Orders (RDO)" page. The page has a header with "[ Home ] Welcome Peter Heron". The main content area is a search form titled "Enter query criteria used to search your Orders". The form contains the following fields: "Account:" (dropdown menu), "Seller Identifier:" (dropdown menu), "RDO Number:" (text input), "NIIN:" (text input), and "Lot Identifier:" (dropdown menu). Below the fields are "Find Orders" and "Clear" buttons, and a note "\* Mandatory". The browser's status bar at the bottom shows "Trusted sites" and "100%".

**Extension Request – If the seller determines that the materiel is available, but in-country processing of the materiel will be longer than normal WWRs lead time, an extension beyond the standard 45 days can be requested. The extension request must first be approved by the PMO prior to acceptance.**

# RDO Cancellation

### Cancel RDO Line

RDO Line	Seller	Released On	NSN	UI	QUPC	Part Number	CAGE Code	Cond Code	Item Name	Status	Lot Id	N	Order Value	WWRs Charge	Net Proceeds	Qty Due In	Awaiting Shipping Info
PYYO445189W007 (1)	ORANGE	12 Jul 2005	5306001841533SX	EA	1	MS9565-04		A	BOLT,MACHINE	OK			\$126.36	\$68.85	\$57.51	162	Y

*This page allows you to cancel an RDO Line Item*

Comments:  \*

\* Mandatory

If the RDO cannot be filled then the seller will need to cancel the RDO by clicking the “Cancel” link next to the RDO to be cancelled.

A reason for cancellation must be provided in the text box.

Complete the cancellation by clicking the “Cancel RDO Line” button.

By canceling the RDO, the order is lost, and authorization to ship material against the RDO has been revoked

Done Trusted sites 100%

Material Needing Disposal

Displays a list of RDO that have an outstanding return/disposal notification

RDO Line	Seller	NSN	Part Number	CAGE Code	Condition Code	Item Name	Qty Received	Qty Accepted	Qty Broken	Qty Wrong Item	Qty Overage	Qty Overage And Broken	Qty On Hold	Unit Price		
PYYL445074W001 (1)	LAKE	6635009605062RN	4918A	28480	A	LEAK DETECTOR,ULTRA	1	0	0	0	1	0	0	\$2,120.98	<a href="#">Return</a>	<a href="#">Dispose</a>

A return/disposal notification will remain open for 14 days. If no action is taken in 14 days, and automatic response of “Return” is provided.

To have the IIP return the material to the seller, click the “Return” link next to the RDO. The seller will be charged a WWRS fee as well as first destination transportation (IIP to freight forwarder) for returning the materiel.

To have the IIP dispose of the material, click the “Dispose” link next to the RDO. The seller will be charged a fee for disposing of the materiel.

https://gold.afsac.wpafb.af.mil/wwrsapp/servlet/AFSAC.S50.Controller?service=RDOSearchDataListing&target=returnDispose

Trusted sites 100%

# Fees

---

- **Discrepant Items (example)**

- Quantity of five is received and one of the five did not pass inspection
  - This creates a required response from the seller to return or dispose of this item. The seller will be charged either a disposal or return fee
- The system will generate a system set-up to accept the replacement item
- Most IIP disposals are \$ 35.00/Returns are min \$ 200.00 plus actual freight charge

- **WWRS Fees**

- All RDOs have the 8.5% WWRS fee applied with a max of \$40,000 and a minimum of \$200
- WWRS pays transportation of up to \$100 to buyer's freight forwarder or CONUS delivery destination

# Seller Reports

**WorldWide Warehouse Redistribution Services**

# Seller Inventory Report

---

- This report will identify to the seller the pricing break out for their inventory
- It is broken down by items priced less than DoD (Green), equal to DoD (Yellow), and greater than DoD (Red)
- The seller sets the selling price of their inventory
- History has shown discounted priced items sell best
- WWRS PMO can assist with pricing or loading items, if desired

# Seller Inventory Report

# Seller Ratings Report

The summary seller rating report is broken down by the seller account and contains the following data, per account, per timeframe:

<b>Account Number</b>	The WWRS seller's account number.
<b>Time Frame</b>	Either "Overall", or "Last Quarter"
<b>RDO Count</b>	The total number of RDOs released to the seller in the timeframe
<b>Cancelled RDOs</b>	The total number of RDOs that were cancelled by the seller in the timeframe
<b>Cancellation Rate</b>	The total number of cancelled RDOs divided by the total number of RDOs received
<b>Turn Time</b>	The average time, in days, from when the RDO was released to the seller to the material being received by the IIP
<b>Shipments</b>	The total number of shipments made (to the buyer) in the timeframe
<b>Approved SDRs</b>	The total number of SDRs approved against material supplied by the account
<b>SDR Rate</b>	The approved SDRs divided by the total shipments (to the buyer).
<b>Rating</b>	The rating achieved in the timeframe given the seller's activity. The rating in green is the account's active rating, and the rating in red is for informational purposes only.

# Seller Ratings Report

---

- Snapshot to identify the seller's WWRS rating
- This rating is a letter grade ranging from A to F
- Ratings based upon overall or previous quarter (whichever is better)
- The calculation to determine a seller rating is as follows:
  - A cancellation rate of less than or equal to 10% awards 2 points (weighted at 50% of total grade)
  - A Supply Discrepancy Report (SDR) rate less than or equal to .01% awards 1.5 points (weighted at 35% of total grade)
  - A turn time of less than or equal to 71 days awards one half of a point. (weighted at 15% of total grade)

# Seller Ratings Report

- Data is calculated for both Overall (WWRS program to date) and the last quarter
- The best performance for each data point is then used to determine seller rating
- Based on the number of points awarded, the seller rating is then calculated by the following:

A = 4 points

B = 3 points

C = 2 points

D = 1 point

F = 0 points

- Identifies any items currently listed in the WWRS inventory which the buyer had procured during the past five years
- Past procurement is a tool often used for forecasting future requirements

# WWRS items previously purchased

---

- **The cross reference report will show the document numbers and the associated case / line for items that are also listed in the WWRS inventory**
- **Also shows pertinent data to include:**
  - Age and / or current status of the requisition
  - Price - both WWRS and DoD
  - Qty on order and qty available in WWRS
  - MOV (minimum order value) data

# Reports Summary

---

- **It is our goal to make the program easy to use for all of our customers**
- **We want our website to allow easy viewing, monitoring, and data retrieval to assist in finding quality materiel and tracking program efficiencies**
- **Reports are available to assist you in maximizing your WWRS experience**
- **We always welcome suggestions that will continue to improve the WWRS program**

# Broadcast Option

---

# Broadcast Option

---

- The broadcast board is offered to give buyers the opportunity to request an item(s) from all potential sellers
- An email is generated to all WWRS sellers, giving them the opportunity to research their inventory for possible availability
- Broadcast remains listed for 90 days (can be listed for longer if requested)

# Broadcast Option
